

*Q&A related to the Questionnaire  
“Procurement of company and sector analysis on environmental,  
social and ethical issues, including advisory services”*

## **General**

1. Would you like us to repeat the information given to you in the Request for Information document (Section “Service provider standing and experience”), or only respond to sections 5 and 6 of the questionnaire?

**As we would like to regroup all information in one document, we kindly ask you to repeat the information from the RFI Section “Service provider standing and experience”.**

## **Section 5**

2. Question: Section 5.1.8 says ‘Please state how company preparedness regarding the issue is evaluated in the analysis of the incident’. What do you mean by that?

**We wish to know how you value company preparedness; like policy, management systems, third party verification etc in your assessment of the incident. For example “incident x could be due to lack of board oversight of the area or incident y is deemed as an accident since the company has state of the art management systems in place and no previous incidents regarding the issue”.**
